

Traffic Safety Cones

- Highly visible reflective sheeting.
- Broad angled and weighted bases provide wind resistance and stability.
- Stackable design to minimize taking up space.
- Manufactured from PVC material gives solid and durable features and provides a longer life for continuous outdoor usage. Bright orange color and reflective sheeting make them highly visible.
- PVC cones have flexible and unbroken features. Best for work areas and dense traffic. UV protected bright orange color provides better visibility and long life color fading.
- Operating temperature range -4°F to + 140°F
